

2009 Model Home Verification Form

Model Home Description:

A model home is a builder's showcase project, is open to the public during normal house viewing hours and days, and typically has a sales office on the premises or nearby. The garage area is often used as a showroom to promote options available to potential buyers, such as paint colors, doors, cabinet and countertop upgrades. The model home is clearly identified with signage and/or banners on the exterior.

Reimbursement:

Allowance is \$15 per opening with a maximum value of \$250 per model home.
