

Cellini Molding Application - Technical Bulletin

Due to the nature of the Cellini product, the edges of the applied moulding may need to be caulked before the door is painted. For the best final appearance, CMI recommends that the installer applies caulk around the entire perimeter of the moulding before it is painted. This is consistent with typical techniques with any applied moulding product.

CraftMaster Door

Choose CraftMaster

ENHANCE INTERIORS. Use doors as an integral part of interior design. Add style, elegance and decorating consistency to your projects.

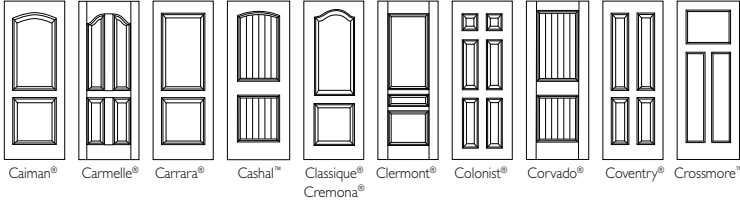

HASSLE-FREE PERFORMANCE. No cracking or panel separation due to seasonal humidity changes means no repainting or replacing.

ENVIRONMENTALLY RESPONSIBLE. No old growth timber is harvested for the manufacture of CraftMaster doors. Instead, by-products from sawmill operations are used to convert waste into doors of true beauty.

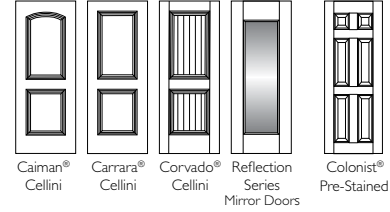

SUPERIOR VALUE. Compelling design and customization opportunity at a significant value versus solid wood or flush doors.
