

Corinth 6'8"

CORINTH IS A UNIQUE FOUR PANEL DESIGN WITH CLASSIC DETAIL AND MODERN APPEAL

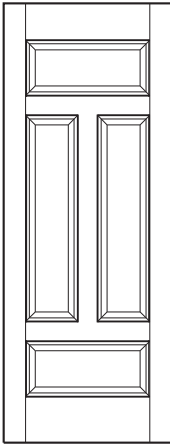

- Elegant smooth finish
- Allows homeowners to achieve consistent quality throughout the home
- Resists shrinking, swelling, cracking and joint separation
- Long lasting with low maintenance
- Engineered wood designs outperform wood doors while offering superior value

TOUGH ON THE INSIDE

CraftMaster products are manufactured using advanced panel technology, wood fiber, and environmentally safe resins to create precisely engineered wood products that perform better than solid wood counterparts. A CraftMaster moulded door design is made from an engineered wood fiber mat that is moulded under intense heat and pressure into a 3.2 mm thick sheet of high-density fiberboard. The result assures consistent quality from door to door, room to room, home to home.

CORINTH™ Smooth Finish

REGION	HEIGHT	WIDTH			
Scandinavia	2050 mm	637 mm	737 mm	837 mm	937 mm
Finland	2060 mm	655 mm	755 mm	855 mm	955 mm
United States of America	6'8" and 7'0"	2'0", 2'2", 2'6", 2'8", 2'10", 3'0", and 3'3"			

GREEN BENEFITS

No Added Urea Formaldehyde – CraftMaster moulded door designs have no added urea formaldehyde. This is certified by Scientific Certification Systems, certificate number SCS-MC-01802.

Sustainable Materials – CraftMaster moulded door designs are made from wood that is of no commercial timber value and the byproduct of other operations, not old growth timber.

Recycled Content – CraftMaster moulded door designs contain a minimum of 63% by weight, pre-consumer recycled content. This is certified by Scientific Certification Systems, certificate number SCS-MC-01801.

Low VOC Primer – CraftMaster moulded door designs are primed with a low VOC primer.
